

## # Requirements

To run the code and reproduce the results, the following Python libraries are required:

Python 3.10+

pandas 1.5.3

numpy 1.24.3

scikit-learn 1.2.2

fairlearn 0.7.0

matplotlib 3.7.1

The code was executed in Google Colab, but it can also run locally with the above dependencies installed via pip.

To install all dependencies:

Go to Bash and type the below command

```
pip install pandas numpy scikit-learn fairlearn matplotlib
```
